| Description: Mouse monoclonal antibody to human macrophage inflammatory protein-1 α (MIP-1 α) | Storage: Store at -20°C |
| Purification: Protein G affinity purified | Research Area: Cytokine, inflammation |
| Product Type: Primary antibody | Background: Macrophage inflammatory protein 1 α (MIP-1 α), also known as CCR3, belongs to the MIP-1 CC chemokine family. The cytokine is mainly produced by macrophages after stimulation by bacterial endotoxins. In acute inflammatory stage, MIP-1 α plays an important role in the recruitment and activation of granulocytes. MIP-1 α also stimulates the production of pro-inflammatory cytokines, including IL-1, IL-6 and TNF- α . In normal status, MIP-1 α plays a role in promoting homeostasis. |
